SciTAC offers technology-based businesses access to building blocks for a solid foundation.

expanding a strong foundation

- The St. Croix Valley, including River Falls, New Richmond and Hudson, is home to a growing number of science and technology companies.

Companies include:

BioDiagnostics, Inc.	Calyso Control Systems
E-Science, Inc.	GaMar Composites, Inc.
ImmunoStar, Inc.	Interfacial Solutions
Paradigm Diagnostics, Inc.	Sajan, Inc.

- St. Croix Valley is located within the I-94 Corridor Technology Zone

With the support of the River Falls EDC, SciTAC's goal is to add technology-based companies to the accelerator facility in River Falls and to the St. Croix Valley.

Development stage technology companies are invited to grow and launch their products in SciTAC's accelerator space, where there is access to shared services, lab space, equipment, conference room and business assistance.

If your technology-based business has advanced beyond the R & D and start-up stage, SciTAC can help you. SciTAC is a one-stop resource that will assist in the acceleration of your company's growth.

strong, diverse economy

The St. Croix Valley has many business advantages that support business development and economic growth.

Companies Benefit from:

- Superior quality of life
- Well developed infrastructure
- Availability of full service business sites
- Convenient proximity to the Twin Cities Metro area
- Efficient transportation corridors
- Strong existing business base
- High quality education system
- Well-educated, skilled, productive workforce
- Regionally competitive wages
